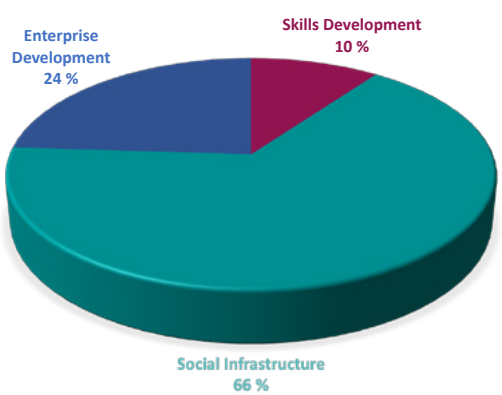
NEW IRRIGATION SYSTEM BENEFITS LOCAL FARMERS

We are proud to have supported the upgrade of the irrigation system at Motlhaka Horticulture Farm in Dinokana Village near Zeerust, a development that is already improving water access, crop production and farming efficiency for local farmers.

The new system allows a more reliable flow of water across the farm, helping community members to grow quality crops, save water and supply local markets more efficiently. The farm, home to 20 farmers, most of whom are elderly community members, has also created 12 temporary and 20 permanent jobs through the initiative.

"We are very grateful for this support. Now water reaches our plots more easily," said Mr Teko David Modisaotsile.

QUARTERLY SPEND



INTRODUCING OUR NEW SCHOLARSHIP RECIPIENT

Rhulani Arlinda Modipane, from Mmasebudule in North West, was awarded Zeerust Solar scholarship this year through our scholarship fund. She is currently pursuing a Bachelor of Medicine and Bachelor of Surgery at the University of Pretoria, and aspires to become an Oncologist.

For Rhulani, the scholarship has helped to ease her financial problems, allowing her to focus fully on her studies.

The initiative allows financially disadvantaged students within the Ramotshere Local Municipality area to pursue higher education and work towards building more secure and hopeful futures.
