REVIVING ABANDONED AGRICULTURAL PROJECTS TO DRIVE LOCAL GROWTH

Through our Enterprise Development Programme, we're helping to revive previously abandoned agricultural projects in the Ramotshere Moiloa Local Municipality to promote food security and local economic growth.

One of the beneficiaries being Motlhaka Horticulture Farm, located approximately 31 km from Zeerust in Dinokana Village. This agricultural project comprises 39 dedicated local farmers, most of whom are elderly community members. With our support, the farm has benefited from the expansion and refurbishment of vital irrigation canals, which are essential to improving productivity.

To date, the project has created 10 temporary jobs, three of which are held by youth, contributing significantly to community upliftment.

SUPPORTING LEARNERS WITH BACK-TO-SCHOOL ESSENTIALS

As part of our Back-to-School Programme, we donated 420 pairs of school shoes to learners from 20 schools, 14 primary and 6 secondary, across the Ramotshere Moiloa area.

The aim of the programme is to ensure that children from underserved communities have one less barrier to attending school with confidence and dignity.

By addressing a basic yet vital need, the programme helps to create a supportive environment where learners can focus on what matters most—their education.

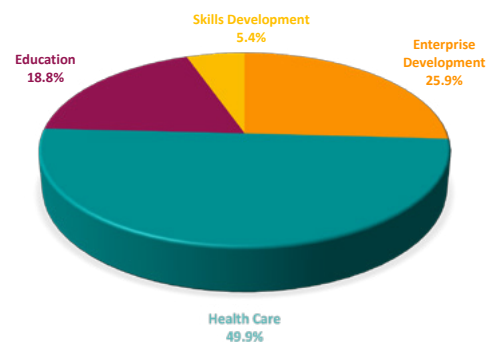

CELEBRATING ACADEMIC SUCCESS OF THE CLASS OF 2024

Earlier this year, we partnered with the Department of Education, Ramotshere Moiloa Local Office, to celebrate the achievements of the 2024 matric class, who achieved an impressive 87.1% pass rate, ranking second in the Ngaka Modiri Molema District.

In recognition of their hard work, we provided laptops and tablets to top-performing learners, teachers, principals and schools.

The event was further honoured by the presence of the local Mayor, who commended the learners for their dedication and perseverance.
