MOBILE HEALTH CLINIC PROGRAMME PROVIDES SPECTACLES TO SCHOOLS

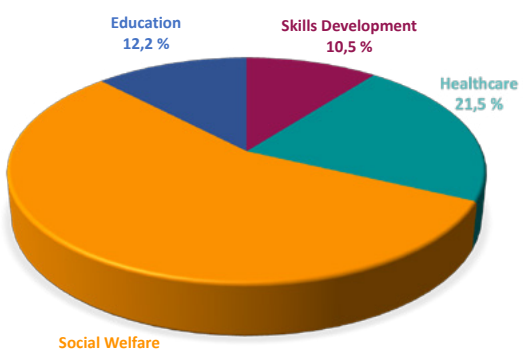

Working with the Department of Education and the Department of Health, we supported the distribution of spectacles as a part of our Mobile Health Clinic initiative, improving access to eye care in the local community.

Five local schools benefited from the programme, namely Ikageleng High School, Mhapa Primary School, Sefatlhane Primary School, Henryville Primary School, and Stinkhoutboom Primary School. In addition, members of the Mmamokete community also received support.

The initiative aimed to address vision-related challenges that often affect learners' academic performance and daily activities. By providing spectacles, the programme contributed to improved learning outcomes, enhanced quality of life, and increased awareness of eye health.

2025 PROGRAMME TOTAL SPEND

THREE-DAY POP-UP MARKET TO GROW LOCAL SMALL BUSINESSES

We are proud to have supported the Ramotshere Moiloa Local Municipality in hosting a three-day Pop-Up Market aimed at stimulating local economic activity. Held during the Black Friday and summer holiday period, the market promoted local trade, access to local SMMEs, and community engagement.

The event provided a platform for local SMMEs to showcase and sell their products, increasing visibility and creating valuable networking opportunities.

Community members were encouraged to support local businesses, assisting in economic growth. The market highlighted the importance of providing inclusive economic opportunities for small businesses while encouraging collaboration between the private sector, local government, and the community.
